Install an app on Apple TV

Find a player app in the App Store and add it to your home screen.

1. On the home screen, open the **App Store**.
2. Choose **Search** and type the app's name, for example **UHF** or **NowSeen**.
3. Choose **Get**. Confirm with your Apple ID password or Face ID on your iPhone if it asks.
4. When it's done, choose **Open**.

   > **Tip** Some apps charge a small one-off fee to remove ads or unlock features. You don't need to pay us for the app.

   Next: type in your login in UHF or NowSeen.
