Install an app on Fire TV Stick (Downloader)

How to install apps that aren't in the Amazon store, step by step.

Some player apps aren't in the Amazon store. The free **Downloader** app installs them for you.

1. Get Downloader

1. On the home screen, choose **Find** (magnifying glass) → **Search**.
2. Type **Downloader** and open the orange app called **Downloader** by AFTVnews.
3. Choose **Download** (or **Get**) and wait for it to install.

2. Allow it to install apps

1. Go to **Settings** → **My Fire TV** → **Developer Options**.
2. Choose **Install unknown apps** and turn **Downloader** to **On**.

> **Tip** Don't see Developer Options? Go to **My Fire TV** → **About**, select your Fire Stick's name 7 times until it says "You are now a developer".

3. Install the app

1. Open **Downloader** and choose **Allow** if it asks.
2. In the box, type the code we give you: `Downloader code`. Choose **Go**.
3. When it finishes downloading, choose **Install**, then **Done**.
4. Choose **Delete** to remove the installer file and save space.

4. Put it on your home screen

1. Hold the **Home** button → **Apps**.
2. Find the new app, press the **Menu** button (three lines) and choose **Move to front**.
